

Application Process

The Berlage Post-Master of Science in Architecture and Urban Design

The application process for the Berlage post-master program consists of the following steps:

- Register and submit your application. Applicants should register with Studielink and submit their application, through TU Delft's online application system, Osiaan. The application process is completely online, you should not send us hard copies or originals. Please see the Application Documents section on how to submit your application.
- Evaluation of your application. Your application will be evaluated by at least two expert members of the admissions committee. Applications will only be evaluated once during an academic year; it is not possible to send new documents for re-evaluation in the same academic year. Please note that the TU Delft does not allow applications to two or more different programs within the same year.
- Selected applicants will receive an interview invitation by email from The Berlage. After reviewing your application, the admissions committee may invite you to an interview. Interviews are by invitation only and conducted by a member of the admissions committee, who will have thoroughly read your entire application package. The invitation will be sent by email. Interviews are conducted via Zoom or, when logistically possible, held in person in Delft. Following the interview, students will either be accepted or rejected to the program. The application process is based on rolling admissions so that applications are reviewed as they are completed.
- Applicants will receive the final decision from TU Delft's Admissions Office.
- After being admitted to our program, you will receive an admission letter from TU Delft's Admissions Office and a financial letter from the Berlage.
- The full tuition fee payment must be made before the payment deadline of July 1. Non-EU applicants also need to include an additional living costs amount. Please note that these payments are part of the admissions process. TU Delft's Admissions Office will finalize your enrollment to the program after full payment is received on our account before the payment deadline.
- TU Delft's Housing and Visa services only start after the complete payment of the tuition fee, the living costs (for non-EU applicants), and payment of a visa and housing service charge.
